

THABANG MOKGONYANA

Software Engineer | Full-Stack Developer | Business Analysis & QA

Johannesburg, Gauteng | 079 490 6530 | thabangmokgonyana@gmail.com
Portfolio: thabangitfolio.netlify.app | GitHub: github.com/MistRoku | LinkedIn: linkedin.com/in/thabang-mokgonyana-041a78250

PROFESSIONAL SUMMARY

Software Engineer with commercial experience across full-stack development, QA testing, business analysis, software deployment, infrastructure operations, and stakeholder engagement. Contributed to commercial platforms including RCPOS, RCPOS Lite, RC Smart Retail, and RC Convergio. Experienced with ASP.NET Core, Angular, React, Laravel, PHP, C#, SQL Server, MySQL, Azure, Docker, and Git-based workflows. Combines development expertise with real-world operational knowledge gained through software delivery, customer support, networking, and enterprise systems.

CAREER HIGHLIGHTS

- Contributed to four commercial software platforms: RCPOS, RCPOS Lite, RC Smart Retail, and RC Convergio.
- Built full-stack applications using ASP.NET Core, Angular, React, Laravel, PHP, SQL Server, MySQL, Azure, and Docker.
- Led a capstone project that achieved a 94% distinction and highest cohort result.
- Gathered stakeholder requirements that influenced production software features.
- Successfully transitioned between development, QA, networking, infrastructure, and support roles.

TECHNICAL SKILLS

Languages: C#, PHP, JavaScript, TypeScript, Java, Kotlin, SQL

Frontend: Angular, React, Blazor, HTML5, CSS3, Tailwind CSS, Angular Material, RxJS

Backend: ASP.NET Core, Laravel, Node.js, Express, REST APIs, SignalR

Databases: SQL Server, MySQL, Firebase, Database Design, Query Optimization

Cloud & DevOps: Azure, Docker, GitHub Actions, Azure DevOps, Azure Pipelines, Netlify, Laravel Forge

QA & Analysis: UAT, Regression Testing, BRDs, Requirements Gathering, Agile, SDLC

Infrastructure: Windows Server, Linux, Networking, Structured Cabling, Asset Management

PROFESSIONAL EXPERIENCE

Junior IT Engineer | Software Engineering, QA & Infrastructure

Reliance Corporation | Feb 2026 – Present

- Gather software requirements and produce BRDs used by development teams.
- Conduct functional, regression, and UAT testing across RCPOS, RC Smart Retail, and RC Convergio.
- Collaborate with stakeholders to identify UX improvements and validate production features.
- Maintain Windows/Linux infrastructure, networking environments, and software deployments.

IT Software & Hardware Support Intern

Reliance Corporation | Aug 2025 – Jan 2026

- Completed structured full-stack training covering HTML, CSS, JavaScript, PHP, Laravel, MySQL,

Git, and SDLC fundamentals.

- Contributed to development and QA activities for RCPOS and RCPOS Lite.
- Participated in a full office network rebuild, including structured cabling, RJ45 termination, switch connectivity, and server infrastructure.
- Delivered Tier 1/2 technical support and managed hardware asset inventories.

PROJECTS

AdminForge SaaS Platform – Laravel 11, Angular 17, Stripe, Docker

- Built multi-tenant SaaS dashboard with RBAC, payment processing, and real-time analytics.

Helpdesk Ticketing System – ASP.NET Core 9, React, Azure

- Developed ticketing platform with JWT authentication, SignalR notifications, CI/CD, and Azure deployment.

Light of Literacy Library Management System

- Led a 3-person Agile team; built Kotlin frontend, Node.js APIs, MySQL/Firebase backend, Azure DevOps workflows, and testing strategy. Achieved 94% distinction.

EDUCATION

Diploma in Information Technology (Software Development)

Rosebank College | Graduated Dec 2024 | NQF Level 6 (360 Credits)

Key Areas: Java, C#/ASP.NET, PHP, JavaScript, HTML/CSS, Kotlin, SQL, Advanced Databases, Software Testing, Business Systems, Systems Analysis, Project Management, Azure, Git, Cloud Computing.

Academic Achievements

- Work Integrated Learning 3B – 94% (Highest Cohort Result)
- Human Computer Interaction – 91%
- Work Integrated Learning 3A – 87%
- Web Development – 82%
- Software Quality & Testing – 77%
- Advanced Databases – 76%

COMMERCIAL SOFTWARE EXPOSURE

RCPOS (Restaurant POS) | RCPOS Lite (Offline Browser POS) | RC Smart Retail (Retail Management Platform) | RC Convergio (CRM Platform)

Contributed through requirements gathering, QA testing, stakeholder engagement, deployment support, bug validation, and feature verification.

CERTIFICATIONS

- SkillUp Full Stack Development Certificate
- SkillUp Cloud Computing Fundamentals Certificate
